General Labour

Description

General Labour carry out a variety of general labouring duties to assist in the extraction of coal, minerals and ore, and in other services in support of underground mining. They are employed by coal, metal and non-metallic mineral mines.

Responsibilities

Job duties

Here are some of the main activities and tasks that Mine labourers have to perform, and some of the physical demands they involve:

- Assist other mine workers in maintaining or constructing underground installations
- Clean underground rooms, roadways, working areas and mining equipment and conveyances using hand tools
- Load, move, sort and pile materials and supplies
- Clear spills of ore or coal using hand and power tools
- May cut core and prepare core sample boxes in support of mine exploration
- Assist other workers in prospecting for mineral deposits and perform various tasks related to general geophysical surveys.

Qualifications

Employment requirements

This is what you typically need for the job.

- In Ontario, mine labourers are registered in the basic common core program.
- A short period of introductory training is provided.
- Completion of secondary school is usually required.
