## Carpenter

### Description

### Description

Carpenters construct, erect, install, maintain and repair structures and components of structures made of wood, wood substitutes, lightweight steel and other materials. They are employed by construction companies, carpentry contractors, and maintenance departments of factories, plants and other establishments, or they may be self-employed. Apprentices are also included in this unit group.

### Responsibilities

### Job duties

Here are some of the main activities and tasks that Carpenters have to perform, and some of the physical demands they involve:

- Read and interpret blueprints, drawings and sketches to determine specifications and calculate requirements
- Prepare layouts in conformance to building codes, using measuring tools
- Measure, cut, shape, assemble and join materials made of wood, wood substitutes, lightweight steel and other materials
- Build foundations, install floor beams, lay subflooring and erect walls and roof systems
- Fit and install trim items, such as doors, stairs, moulding and hardware
- Maintain, repair and renovate residences and wooden structures in mills, mines, hospitals, industrial plants and other establishments
- Supervise apprentices and other construction workers
- May prepare cost estimates for clients.

### Workplaces and employers

Here are the typical workplaces where Carpenters are employed and some of their main characteristics:

- Maintenance departments of factories, plants and other establishments
- Construction companies
